Health unions take action over collective agreement

Belgium

Health and social care unions from all three trade union confederations took strike action on 24 October to put pressure on the employers to resolve issues in the non-profit sector negotiations. Trade unions are particularly concerned to resolve problems around stability and predictability of working hours and contracts, right to annual leave, action to tackle burn-out and training. The unions say that most private hospitals were affected with action also taking place in the social care sector.
