

Unions continue the gender equality campaign

Switzerland

14 June marked the anniversary of the massive mobilisation and strike action of women workers across the country to highlight persistent gender inequality. Latest figures show a gender pay gap of close to 20% and an even higher pensions gap of nearly a third. With major mobilisations impossible in the current situation, a week of online and local actions were organised in the week beginning 8 June to highlight the urgent need for action to tackle inequality.
