

Union welcomes deal on pay and jobs in waste sector

 [Netherlands](#)

The FNV trade union has welcomed a new two-year agreement covering 7000 workers in the waste and environment sector. Pay will increase by 6% over the two years but with a EUR 900 flat-rate increase in the second year it will mean that lower paid workers will see wages rise by 7.5%. There is also a commitment to provide permanent contracts for 360 temporary workers, to reduce hours for older staff while taking on young workers and paid partner leave at the birth of a child will now be a minimum of four weeks. Private sector waste workers are covered by a separate (transport) three-year agreement signed earlier this year with a 2% pay increase a year plus additions for specific jobs.
