

Call for more resources to prevent and tackle forest fires

 [Spain](#)

In a timely intervention, the FSC-CCOO has called on the government to put more resources into the prevention and fighting of forest fires - an issue which the union sees has become one of the most urgent for the country and rural communities. Along with a strengthening of the fire service - increased employment, professionalisation and training - the union argues that more has to be done to take preventative measures, some of which could actually help to boost rural economies.
