

# Unions protest over dismissals and minimum wage

 [Türkiye](#)

On 3 October unions in the DISK and KESK confederations organised a half-day work stoppage in the city of Izmir in western Turkey. The strike called for the reinstatement of workers who have been arbitrarily dismissed by the government in its continuing indiscriminate actions following the attempted coup in 2016. The unions also called for an increase in the minimum wage and for municipal workers to be treated the same as civil servants in relation to the government's recent legislation to end outsourcing.
