

Public service federations want government action on pay and conditions

 [Spain](#)

The public service federations of the CCOO confederation have called on the government to confirm the pay increase for 2020 as agreed and to undertake major negotiations over a range of issues including the re-establishment of rights and benefits frozen or removed as a result of austerity measures. The federations underline the need to stabilise employment and tackle the excessive levels of temporary work. They also say that long-standing issues relating to public employment, job classification, career development and equality need to be addressed.
