

Union mobilises against energy network companies

 [France](#)

The FNME-CGT energy union is stepping up its mobilisation of workers in the Enedis and GRDF electricity and gas network companies. The union accuses both companies of focusing on increasing profits at the expense of employees and customers. The companies are pushing through restructuring, outsourcing and job cuts with employees facing work intensification and pressure to deliver services without the proper resources. The union has a range of key demands including an increase in pay and an end to job cuts and outsourcing.
