

# **Union gets confirmation of funding for pay rises in non-profit health and social care**

 [Ireland](#)

The SIPTU general workers' union has confirmed that thousands of health and social care workers employed by non-profit organisations (Section 39) are set to get a EUR 1000 pay increase as part of a process of pay restoration in line with what has been happening in the public sector. Around 50 organisations are covered by the initial negotiations and the situation in a further 250 organisations will be taken up in negotiations beginning in July. The union managed to negotiate a deal last December after an 18-month campaign.
