

# **Union launches campaign over healthcare staffing**

 [Austria](#)

The vida public services union is joining up with the Chamber of Labour to launch a campaign to highlight the urgent need to increase staffing in hospitals. Various actions are planned as part of the "More of us. Better for All" campaign which will highlight the pressures on workers from understaffing. The main demands are for a 20% increase in hospital staffing with urgent action needed in acute care; introducing a national, binding basis for establishing staffing levels; and measures related to education and training to make health occupations more attractive to younger workers.
