

Massive support for private health care strike

 [Italy](#)

The three public service federations - Fp Cgil, Cisl Fp and Uil Fpl - reported fantastic levels of support for the national strike in the private health care sector. In many facilities all workers not providing minimum services joined the strike action. This shows the level of determination of workers to secure the first new collective agreement for 14 years. The Aris and Aiop employer organisations refused to ratify the agreement in June after three years of negotiations and after initially indicated their backing for the deal. The negotiations cover around 100000 workers.
