

ETUC and ITUC write protest letter to government

[Romania](#)

The European and global trade union confederations (ETUC and ITUC) have written to the Romanian government to protest against the decision not to implement a pay increase for public sector workers. The letter also challenges the government on anti-union statements and threats to remove the right of trade unions to collect membership fees through check-off. EPSU also wrote to the government along similar lines in January and followed up this letter in March – with no reply received so far to either letter.
