

# Unions criticise Long COVID compensation proposal

 [Netherlands](#)

The [FNV](#) and CNV trade unions have reacted angrily to government proposals to offer health workers a one-off payment of €15000 as compensation for contracting Long COVID. The unions are unhappy that it has taken so long – over two and a half years – for the government to come up with a proposal and that the offer, announced without consultation with the trade unions, now has to be confirmed by the council of state.
