

EPSU Executive debates trade union rights

[Europe](#)

The EPSU Executive Committee met in November and agreed on a number of initiatives on trade union rights. These included a proposal to initially focus our trade union rights work on Belarus, Georgia and Turkey, assessed as “countries at risk” by the ITUC and encourage affiliates to support action on trade union rights in these countries with the possibility that this could be coordinated by the constituencies. EPSU will also work more closely with the ETUC, PSI and ITUC on trade union rights and support their work in the Council of Europe and ILO. Affiliates are urged to keep the Secretariat informed of trade union rights campaigns they are involved in.
