

## **Gas social partners ask continued support for social amendments European Parliament**

(1 December 2008) Eurogas and the trade unions have sent a joint letter to the European Parliament, Commission and Council to seek support for amendments of EP on employment related issues.

The amendments of the EP seek to involve the national social partners in the implementation of the internal market package and in particular the effects of the unbundling regime followed. These amendments also seek support for reporting to the Commission and the European social partners.
