Right2water nominated for Campaign of the year!

(16 April 2014) Our ECI-campaign has been nominated for the European Democratic Citizenship Award in the category of Best Campaign 2013, by the European Civic Forum.

The European Democratic Citizenship Awards celebrates civic engagement and reward every year civil society initiatives and actors which give real substance to democratic citizenship, bring about social innovation and positive change in the life of the local, regional, national or European communities.

We can be proud that our ECI contributed to these goals. The award will give an opportunity to keep our demands in the focus of the EU and European Parliament.

From today till 25 April you can vote here

Please vote for “Right2water” and pass this call to all your friends, asking them to vote for “right2water” too! A vote for “Right2water” is a vote for yourself!
