Federations set out key bargaining demands

Spain

(August 2016) The public sector federations of the CCOO and UGT confederations have set out some key collective bargaining demands. The CCOO federations put their proposals to the Ministry of Finance and Public Administration at the end of July calling for a re-establishment of collective bargaining, creation of 356000 jobs and an end to restrictions on recruitment. They also want to see a recovery of purchasing power for public sector workers, a return to the 35-hour week and recuperation of other cuts to pay and conditions made since 2010. The FeSP-UGT federation demands include a 3% pay increase for all public sector workers in 2017 in line with government forecasts for economic growth. Read more at FSC-CCOO (ES) and FeSP-UGT (ES).
