

Union sets out key bargaining demands

 [Sweden](#)

(January 2017) White-collar union Vision has set out its main bargaining demands in its negotiations with the KFS organisation for local enterprises. The union wants to see competitive salaries and action to improve well-being at work. It also wants employees to be on permanent contracts with employers providing objective justifications for any use of fixed-term contracts of agency staff. Longer paid holidays, individual working time accounts and shorter hours for workers in establishment requiring 24-hour cover are also among the demands.
