

New decent work guidelines for multinationals

[Europe](#)

(April 2017) The International Labour Organisation has issued new guidelines for multinational enterprises. The revision has added to the longstanding ILO declaration by adding principles addressing specific decent work issues related to social security, forced labour, transition from the informal to the formal economy, wages, access to remedy and compensation of victims. The principles have been agreed with employers, trade unions and governments and set out responsibilities for public authorities.
