

Home care workers plan further action

 [Spain](#)

The four unions representing home care workers in the Basque region (ELA, LAB, UGT and USO) have planned further work stoppages as part of their long-running campaign to end the pay freeze and negotiate new collective agreements. Two three-hour stoppages will take place on 25 and 31 May. There will also be a protest outside the Mungia town hall on the 25th and workers will surround the Bilbao town hall on the 31st. The unions are targeting local authorities for allowing the contracting out of home care services without any minimum prices specified and no hours guaranteed for the workers. The workers have already carried out 10 stoppages and organised innumerable protests in their campaign to secure their first pay rise for five years.
