

Unions maintain campaign over pay, pensions and other conditions

 [Portugal](#)

Local government union STAL and other unions in the public sector Frente Comum took part in a major national demonstration on 10 May as part of their long-running campaign to improve pay and working conditions in the public services and reverse the cuts imposed as part of austerity measures. Along with higher pay and better pensions, the unions want to see clear commitments to improve career progression and action on working time.
