

Working time success in health and social care

[Switzerland](#)

The vpod/ssp public services has welcomed two initiatives on working time agreed with the BSH health and social care employers' organisation in the Graubünden/Grisons region. The BSH has agreed to the demand for time taken to change into and out of work clothes to be recorded as working time. This is a key demand in a national campaign being run by the union. Ten minutes a day is allocated to changing clothes but this may be adjusted depending on the outcome of a legal case in the Zürich region. The vpod/ssp also welcomes the decision of BSH to recommend a minimum of 25 days' annual leave to its member organisations, a move which the union sees as important in helping the sector address staff shortages.
