

# **EPSU-ETUI Economic Policy Meeting (Two Days)**

## **- report**

20-21 February 2013, ITUH, Brussels

This meeting is jointly organised by the Education Department of the European Trade Union Institute and EPSU.

The aim of the two-day seminar is to help EPSU affiliates understand the various elements of the economic governance process at national and European levels and the role they can play in this.

The seminar will include some explanatory sessions to ensure that participants are fully briefed on the different parts of the European Semester – the Annual Growth Survey, the alert mechanism in the Excessive Imbalance Procedure, the Country-Specific Recommendations etc.

The meeting will explore in particular the implications for the public sector and public services as well as for collective bargaining and wage development in the public sector. Participants will have the chance to discuss what EPSU could and should be doing to monitor the process and the role of affiliates at national level. There will also be a session on alternative economic policies.
