

European coalition for the Right to Energy moves forward

(21 June 2019) This week the Right to Energy coalition organised a European event with over 100 participants from 20 countries and several European organisations. The event that took place from Tuesday 18th in the evening until Thursday 20th was a combination of lectures, workshops and networking events to develop further the work of the Right to Energy coalition.

The gathering adopted a resolution that you can [read here](#) in order to broaden our coalition to those that share our values and vision.

The event was closed with a roundtable of MEPS that discussed the next mandate. Theresa Griffin, Cornelia Ernst and Saskia Bricmont, recently elected in Belgium discussed about the coming term in the European Parliament, the debate was moderated by Benjamin Denis from ETUC.
