EPSU Congress : Programme of Action

(23 September 2019) This programme of action highlights the main priorities for EPSU over the next Congress period and is set out on the basis of three main themes:

A. Future of public services
B. Future of work in public services
C. Future of public service trade unions

These three elements form the basis of EPSU's contribution to building a Europe where people and the environment are free from exploitation and welfare for all comes first. Our vision of work and society is shaped by our shared values. These highlight the need to protect and promote democracy, peace and civil, economic, social and cultural rights and to uphold the right for everyone to have access to quality public services to guarantee their fundamental rights and well-being.
