

Unions make progress with "health offensive" campaign

 [Austria](#)

Public and private sector health unions (youunion, GÖD, vida and GPA-djp) have joined with the chamber of labour and chamber of doctors in a campaign - "health offensive". The aim is to achieve major change across the health and long-term care sectors and tackle some of the long-standing issues of understaffing and overwork that have been exposed by the impact of COVID-19. The unions have managed to establish a structured dialogue with the health ministry to address seven key issues - staffing, working conditions, training, career development, investment and ensuring service provision.
