

Nurses' union demonstrates over careers, pay and promotion

 [Portugal](#)

The SEP nurses' union organised a protest outside the prime minister's office on 8 October as part of its long-running campaign to secure improvements to the system of career development and promotion. The union wants to see promotion opportunities unfrozen and on the basis of a range of measures that, among other things, properly recognise past work experience. The union also has several specific demands on classification of certain jobs. The union argues that these measures are even more important than any promise of bonuses. EPSU sent a message of solidarity.
