

On Public Services Day, Stop austerity! Workers need a pay rise!

On the 23rd of June, Public Services Day, citizens around the world acknowledge the wide range of education, health, social and other key services delivered all day and everyday by public service workers. This year the European federations for public service (EPSU) and education (ETUCE) want to highlight the contribution made by the millions of public service workers who have done their best to maintain quality services while suffering the long-term effects of pay cuts and pay freezes.

To read more about the situation back in 2010 and 2012 you can read our reports [The Wrong Target](#).
