

## EPSU update on trade October 2017

(20 October 2017) This issue of the EPSU trade update focuses on the EC trade package that was published in September. We also include information on the reform of the sustainable development chapters of trade agreements (TSDs) and the ETUC's response to the European Commission's 'non-paper' on this subject. Other issues covered include developments regarding the Multilateral Investment Court (MIC), CETA, JEFTA and TiSA.

As always comments and feedback are welcome.

Below the EPSU update on trade developments October 2017 + Letter to the Prime Minister of Canada Justin Trudeau:
