

# **Unions mobilise over fair pay and conditions across public administration**

 [Spain](#)

Recent mobilisations of union members in public administration in Lleida, Logroño, Tarragona y Ceuta mark the end of a first phase of demonstrations organised by the three main public service federations in CCOO, UGT and CSIF. The key aim of the protests has been to keep up the pressure for the recuperation of pay and benefits cut under austerity but also to call for public employees to have the same pay and benefits as civil servants. The unions are also demanding a minimum monthly wage of EUR 1200 across the public administration.
