

# **Prison unions begin their campaign of strike action**

 [Spain](#)

EPSU's affiliates in the prison services - FSC-CCOO, FeSP-UGT and ACAIP-USO - began their planned six-day strike campaign on 24 October. The unions are calling on the government to abide by its commitment to fund pay increases in the sector that are needed to deal urgently with staff shortages and to address the question of major pay disparities in different institutions. The strike action follows a long period of campaigning, lobbying and negotiating and the unions have agreed that further strikes will take place on 26 October with a further four days in November (6, 8 13 and 15).
