

## **Addressing musculoskeletal disorders and psycho-social risks and stress at work in the hospital sector (2014-2016)**

HOSPEEM and EPSU have been provided support by the European Commission for a joint project aimed at implementing one of the two main priorities of the new work-programme 2014-2016 of the European Sectoral Social Dialogue Committee of the Hospital Sector, i.e. the promotion of occupational safety and health. In this area HOSPEEM members and EPSU affiliates have identified “psychosocial risks and stress at work” and “musculoskeletal disorders” as the two main focal topics.
