

Unions to step up action in private health care

 [Italy](#)

The FP-CGIL, CISL-FP and UIL-FPL public service federations are stepping up their mobilisation of members in private health care in response to the latest statement from the AIOP and ARIS employer organisations. It is now 12 years since the signing of the last collective agreement and the employers, whose member organisations have a combined turnover of around EUR 3.9 billion, have said that they will provide no money for pay increases. AIOP has said that renewing the agreement is a priority but the employers want any additional costs to be fully funded by the public sector.
