

Unions secure NOK 975 increase across public service companies

 [Norway](#)

Trade unions coordinated by the LO confederation have secured a NOK 975 (EUR 93) increase on monthly pay for all workers covered by the negotiations with the Spekter employers' organisation. Spekter covers major companies providing public services, particularly in health, culture and transport/infrastructure. On top of this general rise local negotiations should deliver further increases. LO Stat, the coordinating body, emphasises that the local negotiations should take account of the low pay, gender equality and the situation of skilled workers and graduates. Low pay in this context is anyone getting 90% of the average industrial wage or less. The negotiations also include initiatives focusing on sustainability and proposals to collect examples of how unions and employers are dealing with digitalisation and artificial intelligence.
