

Regional meetings debate collective bargaining in the energy sector

[Europe](#)

EPSU's working group on collective bargaining in the energy sector in Central and Western Europe met for the sixth time on 21 April to discuss the latest developments in negotiations and to look at updated information on wages and profits in some of the main European energy transnational companies. On 23 April the VDSZSZ Hungarian energy union organised a meeting with Czech, Slovak and Slovenian unions to discuss a range of issues including collective bargaining developments in the respective countries.
