

Three-year deal will benefit nursing assistants

 [Sweden](#)

(October 2016) Municipal union Kommunal has negotiated a three-year collective agreement with KFO, the organisation that represents cooperative and non-profit organisations. The deal includes a SEK 500 (EUR 51) increase for all full-time workers in the first year then increases that match the going rate in industry.. But in order to address the lower pay faced by undervalued jobs predominantly done by women, the agreement includes additional increases for nursing assistants in each of the three years.
