

Strengthening Social Dialogue in the Hospital Sector in the Baltic States (2010/2011)

Summary information on the project

The project “Strengthening social dialogue in the hospital sector in the Baltic countries”, run by HOSPEEM, supported by EPSU and co-financed by the European Commission, has four main aims:

- to improve the dissemination of the priorities and outcomes of the European sectoral social dialogue in the hospital sector in the Baltic countries;
- to help share good practice on some of the core priority actions of the sectoral dialogue between EPSU and HOSPEEM;
- to help build the capacity of the hospital sector social partners in the Baltic countries;
- to assist in feeding national social dialogue interests from the “bottom up”.

A questionnaire has been sent to HOSPEEM members and EPSU affiliates (see below).

Two workshops and a final conference have been/will be organised. To learn more about these events click on the links below.
