

Labour movement puts focus on persistent gender pay gap

 [Europe](#)

(March 2017) Marking International Women's Day with a focus on the gender pay gap, both EPSU and the ETUC underlined the need for urgent action to deliver pay rises across Europe with a particular emphasis on higher increases for sectors and occupations dominated by women. Flat-rate increases, job evaluation and other measures were highlighted as part of the strategy to address the gender pay gap and low pay among women workers.
