

Higher pay scales for public sector workers

 [Ireland](#)

(April 2017) All public service workers on less than €65000 a year benefit from higher pay scales as of 1 April. The €1000 increase has been brought forward and has been implemented as part of the restoration of pay cuts that were implemented from 2009. Next month a public service pay commission is due to report and then pay negotiations will begin which will include further steps to restore the pay cuts.
