

[Timetable set for negotiations on firefighters' pay and conditions](#)

 [Italy](#)

Eight years on since the renewal of the last collective agreement, the Ministry of Public Administration has confirmed the timetable for negotiations over firefighters' pay and conditions. The FP CGIL union is looking for a pay increase to recognise the professional responsibilities of firefighters with a minimum €80 a month as agreed in the initial public sector pay talks last year. The union will also be looking for improvements in pensions and ways of dealing with accidents and occupational diseases.
