

# [Two reports analyse extension of collective agreements and social dialogue in public services](#)

## [Europe](#)

The International Labour Organisation (ILO) has published two reports on collective bargaining and social dialogue. A working paper on social dialogue in public services was published to mark the 40th anniversary of ILO Convention 151 on labour relations in the public services. It covers three of the European social dialogue committees in which EPSU is involved along with examples of how social dialogue works in Italy, Denmark and the Czech and Slovak Republics. The ILO's report on extension of collective agreements provides evidence on the important role that this process can play in reducing inequality and countering unfair competition by providing a level playing field at sector level.
