Managing the impact of Brexit on multinational companies (update January 2021)

Joint European Trade Union Federations’ Recommendations to EWC/SE Coordinators and worker representatives in SNBs, EWCs and SEs - update January 2021

Four years after the UK referendum, Brexit has taken place. Since 1 January 2021, the United Kingdom is no longer a Member State of the European Union, nor part of the European Economic Area (EEA). As from that date, a new Trade and Cooperation Agreement governs the relationship between the UK and the EU with a view to regulating their economic and social partnership.
In order to take stock of this new situation, the European Trade Union Federations have decided to update their joint guidelines to EWC and SE on Brexit, with a focus on the new regulatory framework as well as a set of recommendations depending on the nature and legal basis of your respective EWCs.
