ETUC highlights pay inequality in push for transparency directive

Europe

The ETUC is publishing examples of pay inequality from around in Europe in its campaign to put pressure on the European Commission to deliver on its promise of a pay transparency directive. The ETUC’s first examples from the manufacturing sector clearly how women are paid less even when their jobs require the same levels of skill and physical effort as those of men. The ETUC also points out that the Covid crisis has exposed the deep-rooted bias behind wages for professions dominated by women, with carers and cleaners recognised as ‘essential’ despite being amongst the lowest paid.
