

Unions criticise government for excluding them from reform debate

Spain

The main public sector unions, including federations from CCOO and UGT, have called on the government to ensure that trade unions are fully involved in any discussions about reforming public administration. The government has announced that a group of experts from different fields would be established to analyse and formulate proposals for reform. The unions say that it unacceptable that any such work that will affect the working conditions of public employees in areas like digitalisation, for example, should be carried out without negotiation or union participation. The unions are now waiting for clarification from the government on how it will proceed.
