

[Manufacturing deal sets pace for rest of economy](#)

[Denmark](#)

(February 2017) Negotiators in the private manufacturing sector signed a new three-year deal last month. This is seen as a key agreement setting the pace for negotiations in other sectors. In the public services, the FOA union noted in particular the proposals for new funding and rights for workers for training as well as improved parental leave. FOA also underlines the flat-rate, two-crown (EUR 0.3) increase in the minimum hourly pay rates in each of the three years of the agreement. Which will take the minimum to DKK 117.65 (EUR 16.1) by 2019.
