

# **Bargaining successes in health and social care**

## [Germany](#)

(May 2017) Services union ver.di reports on two significant bargaining developments in the Sana healthcare company and in the non-profit care sector in the Saxony-Anhalt region. Sana's 10000 workers will get a 2.2% pay rise backdated to 1 January this year and a further 2.2% from 1 February 2018 along with several other improvements to pay and conditions, including two extra days off for ver.di members only. The new pay agreement in Saxony-Anhalt covers 4000 care workers employed by the regional welfare federation and is backdated to 2016 while providing pay increases until 2018. Ver.di sees this as a significant marker for the non-profit sector.
