 [Spain](#)

The FSC-CCOO and FeSP-UGT public service federations have called a strike on 16 October involving workers in the government's overseas services. The strike is in protest at the freezing of salaries for the 7000 workers in the service and increasingly precarious employment conditions. The unions say that the strike is necessary as there has been no response to their demands since a meeting a meeting in June and despite a number of other protests and actions so far in 2017.
