

# **Unions recommend new pension scheme to members**

 [Norway](#)

Public sector unions have negotiated a new public sector-wide pension scheme that they are recommending to members who will vote on whether or not to accept the new arrangements. The scheme will be introduced from 2020 for all workers born in 1963 or later. The unions are pleased with the result which they say produces a gender-neutral scheme and will see members earning pension entitlement on all their earnings from day one of employment. There will also be early retirement provisions for those who need it.
