

Unions get better deal for paramedics

 [U.K.](#)

(December 2016) The public service unions GMB and Unison have welcomed a new deal that will see paramedics move up the National Health Service pay scale. The unions argue that the level of skills and responsibilities of the job justify the change. The paramedics are currently on a scale GBP 21000-28000 (EUR 24900-33200) and will move up to GBP 26000-35000 (EUR 30900-416000).
