

Unions present their key demands to the government

 [Spain](#)

(March 2017) The public sector federations in the CCOO and UGT confederations, along with the CSIF union organisation, have presented their key negotiating demands to the minister of finance and public service. The unions are underlining the important of re-establishing a proper process of social dialogue and are focusing on three central demands - the recuperation of lost purchasing power and negotiation of pay increases, an increase in employment and measures to reduce temporary employment and a restoration of other conditions lost as a result of austerity.
