

WHERE HAS THE MONEY GONE?

“We want it back:
Europe’s missing €1Trillion”

Crack down on tax dodgers, not tax raisers, and invest in tax services to raise public revenue for the general interest.

In times of austerity for the majority and prosperity for the few, collecting the thousands of billions of Euros in unpaid tax should be the highest priority for governments and EU institutions, not cutting down on public service jobs and pay, and on hard-fought welfare states.

Join EPSU’s Missing €1Trillion campaign by visiting www.xxx.org for information on: the scale of tax fraud and large tax dodgers in Europe; the amount of money tax staff recover for society; why it is wrong to cut public services; why it is right to collect

taxes for the general interest and how we can make a difference for a better Europe.

Europe simply cannot afford further tax fraud, avoidance and offshore tax abuses that are robbing us of an estimated 1000 billion of Euros in lost annual revenue and eroding citizens’ trust in the fairness and legitimacy of tax collection to finance common goods.

EPSU, the European Federation of Public Service Unions, represents more than 270 trade unions organising 8 million workers in local, regional and central government, EU administration, health and social services, energy and water.

It promotes tax justice based on fairness, progressivity, efficiency and transparency. We defend those very workers who have been the target of four years of devastating cuts in jobs, pay and pensions. Closing Europe’s tax gap, the difference between what is owed and what is actually paid to public authorities, would allow investment in welfare, education, childcare, elder care, renewable and sustainable development in and outside Europe.

It is time to get the missing money back!
